

Dr. Miles' Nerve Tonic.

REV. W. T. HOUGH, the talented pastor of Grace U. B. church, Carlisle, Penn., writes September 28, 1895: "I always enjoyed good health until 1892, at which time my duties as a clergyman were of a peculiarly trying nature, subjecting me to several severe nervous shocks which together with overwork and anxiety, impaired my general health and nervous system. Indeed I was in such a condition that the mere sight of a large congregation so worried me that I would require a day or more for me to recover from the exhaustion. It affords me great pleasure to say that Dr. Miles' Restorative Nerve and Restorative Tonic have done me untold good. I preached three times yesterday and I feel as fresh and vigorous this Monday morning as I ever felt in my life, thanks to your remedies. Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Nerve and Nervousness free to all applicants. DR. Give Pictures Room.
The handicap that contracts the use-
fulness of the picture is that many ad-
vertisers are slow in learning the neces-
sity for giving the picture plenty of
room. A trifling illustration, occupy-
ing an inch of room, cannot present its
case as strongly as one three times as
large. As we grow wiser we will give
illustrating more space as well as more
consideration. Dry Goods Economist.

A Wholesome Soap.
Toilet soap, to be good, should be
as wholesome as food. The skin is as
sensitive as the stomach, and is as
quickly affected by impure soap as the
stomach is by unwholesome food. With
this fact in view, Alpha Cox, the
druggist, recently engaged one
of the most reliable soap makers in
the United States to prepare a special
skin soap for his trade. The soap
has been received at his pharmacy, and it
proves to be all that the proprietor desired in
so essential an article of the toilet—a pure,
perfumed soap, agreeable to the skin, and one
which, having once been used, will be used
again, and cheerfully recommended to friends.
When you are purchasing toilet requisites
again, bear in mind Cox's Special Skin Soap.

Fashionable Parasols.

There are no particular changes to
chronicle in the shape of parasols, but
they are made of all possible fabrics,
and the styles of trimming them are leg-
ion. The only dressy ones that are
untrimmed are coaching parasols.
Dressy ones for the promenades and
carriage are a billowy mass of chiffon,
guaze, and lace, in puffs, accordion plait-
ings and ruffles. Even artificial flowers
are heaped upon these with only a less
lavish hand than upon hats, and rib-
bons also are an important featur.
Transparent fabrics and thin silks are
also made in the new sun-plaitings,
which radiate from the centre, and are
named "sunburst parasols." — From
Demorest's Magazine for June.

There is more catarrh in this section
of the country than all other diseases
put together, and until the last few
years was supposed to be incurable.
For a great many years doctors pro-
nounced it a local disease, and prescrib-
ed local remedies, and by constantly
failing to cure with local treatment, pro-
nounced it incurable. Science has pro-
nounced it a constitutional disease,
and therefore requires constitu-
tional treatment. Hall's Catarrh Cure,
manufactured by F. J. Cheney & Co.

cure on the market. It is taken inter-

Indeed I was in such a condition that the mere sight of a large congregation would weary me so that I would require a day or more for me to recover from the exhaustion. HAMLEN SMITH, Chairman.

S. W. SHIELDS, Sec'y.

YESTERDAY President McKinley and party started on their journey to Nashville Tennessee.

The Columbus Herald is doing itself much credit by its report of the high school commencement.

The Columbus republicans are making ample preparations for the congressional convention to be held there June 22

BRYAN and Bailey stand together now and may be the cry of the free silver hosts in 1900. But Bailey don't stand in with the populists in congress now.

COL. RICHARD W. THOMPSON yesterday informally celebrated his eighty sixth birthday. He is receiving congratulations from his friends throughout the country. Col. Thompson is one of the most interesting men in the United States.

The approaching Ohio election will be by far the most attractive of any that will take place this year. A strenuous effort will be made by the free silver people to capture the legislature and elect millionaire John R. McLeary to the United States senate.

The gold democrats of Kentucky have issued a call for a state convention. They will put in nomination a candidate for clerk of the court of appeals, the only state officer to be elected in November. They are sincere in their opposition to Bryanism and are getting in position to show their full strength.

PAYS RESPECTS TO MATTHEWS.

The New Albany Public Press one of the best democratic papers in southern Indiana pays its respect to "Claw" Matthews in an editorial entitled "A Demagogue at Large." The Press refers to him as a "perennial, persistent and unrelenting place hunter." Of his senatorial ambitions our contemporary has decided and positive convictions. It says:

"This repudiated tricky, brazen bar-nacle also seems to imagine that he can break into the United States senate by means of low cunning and that he can work up a sentiment for himself and against worthy democrats who have brains and ability who seem to be in his political pathway. But time will teach him that he is mistaken."

POLITICAL BREVITIES.

Henry L. Wilson, of Washington, a former Indianan, has been appointed minister to Chile.

O. P. McLain, chairman of the Decatur county populist committee is very plain and emphatic in his disapproval of the democratic congressional nominee. He says the free silver people should have nominated Allen W. Clark and thus avoided division. He says that under the circumstances there is only one thing for the populists to do, that is nominate a candidate of their own and vote for him. As to who should be their candidate he says: "We have plenty of good material among whom might be mentioned Richard Gregg, of Aurora, Adam Stottinger, of Versailles, John Q. A. Newsom, of Seymour, and Dr. U. M. Browder, of Greensburg; all of whom are good silver men, that cannot be bought or bullied. All of them supported Bryan last year, and our Democratic friends, if they are sincere in their desire to unite the silver forces and save the country, could do no handsomer thing than to come to our log-rolling this year."

The democrats of Jackson county are not saying much about it, but their silence and lack of enthusiasm prove conclusively that they are not satisfied with their nominee for congress. They hoped to get a candidate whose free silver record would be unquestioned.

The first number of the Mt. Pleasant (Pa.) Star, published by Hurst & Van-Harlingen, is on our table. It is a new six-column folio, worthy of the hearty support and patronage of the people of Mt. Pleasant. The REPUBLICAN extends fraternal greeting.

The democratic party never realized more fully than now that their opposition to the policy of protection has been on the wane for the past few years. Their cry that the tariff is a tax is now well known by the people to be only a part of their impracticable theory.

SENATOR GORMAN's prediction that the Dingley bill will pass the senate by June 20 will give encouragement to the country. It shows, at all events, that the democrats do not intend to obstruct the bill in any factious way. They will try to amend it in the direction of low duties, and most of them, of course, will vote against it when it comes up for final action, but they will not filibuster or resort to any of the usual tactics of delay. The democrats realize that the country wants to get the bill enacted at the earliest possible date, and they see the danger of interfering with this purpose.

Supplying All Wants. The Peddler—I have the most excellent silver polish. The Lady of the House—Don't need it. I haven't got any silver. "Well, then, it will take grease spots out of wall paper." "Haven't got any wall paper." "Then it will renew the curl in feathers." "Haven't got any feathers." "Well, then, it will make oil paintings look like new." "Haven't got any oil paintings." "Well, then, a little taken internally will make you feel as if you had some of these things. Good day."—London Advertiser.

Disappointment Qualified. Lady—I was awfully sorry, professor, I was unable to come to your lecture last night. Were there many there? The Professor (Irish)—Um—well—not so many as I expected. But I never thought there would be.—London Punch.

BIRDS AND DISEASE.

An Authority Who Thinks Birds Incapable of Carrying Contagion.

Persons interested in birds have recently been debating the question whether these creatures are capable of contracting diseases from human beings or of transmitting disease to human beings. Expert opinion seems to be divided. On the one hand Dr. K. Rulf, director of Gefiederwelt, in a recent letter to the president of the Acclimation society, asserts that the transmission of any disease from a bird to a man and vice versa is absolutely impossible. Says Dr. Rulf:

"For more than 30 years I have been occupied in keeping, observing and raising exotic birds of plumage; consequently I have had occasion to deal with them when ill. Every bird that has died has been examined, and I have thus dissected during about 80 years several hundred parakeets. I have always kept these birds during their illness, sometimes for a considerable period, in my apartment, which is somewhat restricted in size, being composed of only six rooms for four grown persons and four children. During all this period I have not had a single case of sickness in my family, although the birds have had all possible kinds of maladies. I am also confirmed in my belief by the fact that I have allowed no opportunity to pass of asking for information on the subject from the principal dealers in birds at Hamburg, Cologne, London, Liverpool, Antwerp, Amsterdam, Rotterdam, Marseilles and Bordeaux whenever they had sick birds in considerable numbers. In no case was I informed that any one, either a member of the family or an employee, had been attacked in the house of one of these merchants, and I obtained the same information from the directors of the great zoological gardens at Paris and London. No contagion—and I cannot insist too strongly on this point—could ever be established."

These, however, are all negative facts and would fail to stand against even one authenticated case of the transmission of disease to or from pet birds. Such cases, it is believed, have been proved to exist by Dr. Latoune, who communicates an account of his investigations to the bulletin of the Acclimation society.

FISH WITH WINGS.

These Scaly Fishes are Prolific in Tropical Deep Waters.

The flying fish loves deep water and is found throughout the length and breadth of tropical seas. He is fond of feeding near the gulf weed of the Sargasso and deposits his stringy, glutinous spawn on its yellow branches. Vessels bound from New York to the Caribbean islands, upon reaching the "horse latitudes," sometimes encounter vast quantities of drifting fish, strung out in long ribbonlike patches about an eighth of a mile apart. Among the golden weed, with its delicate leaves and globular seeds, exists a curious family of cuttlefish, crabs, mollusks and small fishes. Upon these the flying fish preys, and they in turn devour its spawn. Every plunge of the steamer as she plows through the blue tropical waters frightens dozens of flying fish into the air, where they scatter in all directions, with the sunlight glistening on their gauzy wings.

The flying fish of the Atlantic attains a length of nearly one foot and a breadth between wing tips of 11 inches. He has a round, compact body, about about one inch in diameter near the pectoral fins or wings. There is also an auxiliary pair of ventral fins or wings, not nearly so large as the pectoral pair. The wings are formed by a thin, transparent membrane stretched over a delicate bony framework and are either black, white or mottled with both. The upper half of the entire fish is a metallic blue in color, while the lower portion is a nacreous white. Black, pointed eyes, a small, prehensile mouth, forked tail, dorsal and anal fins, complete the picture of one of the most interesting little fishes in all nature's vast aquarium.

In flight he darts from the water to a height of 20 feet and goes scudding away before the wind, beating the air rapidly with both wings and tail. He sails straight away for 1,000 feet or even more, occasionally touching the crest of a wave, and seeming to gain a new impetus by the contact.—Forest and Stream.

KENTLAND HUSTLES

Raises \$25,000 to Prevent the County Seat Being Removed.

CHARGES AGAINST A SQUIRE.

Indiana and Kentucky Boundary Line Settled—Gathering of Preachers—Cart ridge Exploded in His Pipe—May Yet Be a Receiver For Johnson's Logansport Bank—Receiptship Closed.

KENTLAND, Ind., June 10.—The county seat question has been an open one in Newton county for 30 years. During all that time the citizens of Brook and Morocco have been striving to have it relocated and thus move it from Kentland, which is located at the extreme southern portion of the county. Kentland people at last got a move on them and at the regular meeting of the board of commissioners tendered them \$25,000 toward the erection of a new and suitable building. The other towns are all fighting the proposition, but it is now thought that the commissioners will accept the donation and order a new courthouse.

LOGANSPOUT BANK.

New Stock Must Be Taken Soon or There Will Be a Receiver.

LOGANSPOUT, Ind., June 10.—The stockholders of the proposed City National bank have elected John Gray, William H. Bell, A. P. Jenks, W. C. Pennock, Isaac Shidder, John T. Elliott, John C. Ingram, George W. Funk and Isaac N. Crawford, directors. John Gray will be president, and John Fox probably cashier. Will Elliott, a heavy loser in the old bank, withdrew his subscription of 200 shares in the new bank; leaving \$25,000 yet to be taken. If all the stock is not subscribed by Saturday a receiver will be appointed. The withdrawal of Mr. Elliott is thought to be due to a possibility that he will have to pay the \$50,000 certificate indorsed by him in favor of the National Bank of the Republic of New York.

TOWNSHIP TRUSTEE LAW.

Construction Placed on It by the Wabash County Attorney.

WABASH, Ind., June 10.—The county attorney holds that under the new law the county commissioners shall meet but once a year, the first Monday in March, to audit the accounts of township trustees. He also holds that after the commissioners authorize a trustee to make a loan, that the former exercises no further control over the township officer, who may borrow money up to the full amount authorized without hindrance.

Indiana and Kentucky Boundary.

INDIANAPOLIS, June 10.—The long disputed boundary line between Indiana and Kentucky on Green river island has been settled and the commissioners who run the line have asked to be discharged. The line is marked by three monuments of stone and 16 of iron and each monument has the word Indiana on one side and Kentucky on the other. Under a decision of the supreme court Kentucky got most of Green island.

Fatal Injuries From a Truss.

CRAWFORDSVILLE, Ind., June 10.—W. J. Bryant, a sawmill man, met death in a peculiar manner. During the war he was ruptured and has since been forced to wear a heavy truss. Recently he was climbing a bank near the mill, slipped and fell heavily to the ground. In falling he hit upon the metallic portion of the truss, receiving fatal internal injuries. He lingered for hours in terrible agony.

Serious Charges.

FOWLER, Ind., June 10.—Justice James Long of Center township, his land being fixed at \$3,000. Perjury, embezzlement and extortion are the charges made against him. Constable Haver of Fowler has stripped for parts unknown. He is charged with extortion and blackmail. A reward of \$100 is offered for his arrest.

Receiptship Closed.

NORTH MANCHESTER, Ind., June 10.—The receiptship of the North Manchester Planingmill company has been closed. It has been in court since 1893. The failure was due to the collapse of the First National bank of this place. The amount of money passing through the receiver's hands was \$44,000, and he was allowed \$2,700 for his services.

Dry Towns in Delaware County.

MUNCIE, Ind., June 10.—Remonstrances were filed with the county commissioners yesterday against licensing saloons in Easton, Selma and Gaston, thus making three "dry" towns in Delaware county.

Cartridge Exploded in His Pipe.

LAGRANGE, Ind., June 10.—John Dillon of near here met with a peculiar accident while fishing. He was standing in a boat when his pipe exploded, and he was knocked unconscious. By some means a cartridge got into his tobacco and from there to his pipe. The bullet struck him over the left eye, entering to the skull bone.

Gathering of Preachers.

LAFORTE, Ind., June 10.—Laymen and clergymen have assembled here in great numbers in attendance upon a conference held under the auspices of the Methodist Episcopal church at Pine Lake assembly. Dr. W. J. Wright, president of the National Association of Local Preachers, is presiding.

Knights of St. John.

CRAWFORDSVILLE, Ind., June 10.—The Knights of St. John will meet here in their bi-monthly assembly July 4 and 5. Nearly every Catholic organization in Indiana will be present. There will be prize drills and bicycle races. Hand-some gifts will be awarded.

Give Pictures Room.
The handicap that contracts the use-
fulness of the picture is that many ad-
vertisers are slow in learning the neces-
sity for giving the picture plenty of
room. A trifling illustration, occupy-
ing an inch of room, cannot present its
case as strongly as one three times as
large. As we grow wiser we will give
illustrating more space as well as more
consideration. Dry Goods Economist.

A Wholesome Soap.
Toilet soap, to be good, should be
as wholesome as good. The skin is as
sensitive as the stomach, and is as
quickly affected by impure soap as the
stomach is by unwholesome food. With
this fact in view, Alpha Coat, the
druggist, recently engaged one of
the most reliable soap makers in the
United States to prepare a special
skin soap for his trade. The soap
has been received at his pharmacy, and
it proves to be all that the proprietor desired
in an article of the toilet—a pure,
perfumed soap, agreeable to the skin, and
one which, having once been used, will be
again, and cheerfully recommended to friends.
When you are purchasing toilet requisites
again, bear in mind Cox's Special Skin Soap.

There are no particular changes to
chronicle in the shape of parasols, but
they are made of all possible fabrics,
and the styles of trimming them are le-
gion. The only dressy ones that are
untrimmed are coaching parasols. Dressy
ones for the promenades and carriage
are a billowy mass of chiffon,
guaze, and lace, in puffs, accordion plait-
ings and ruffles. Even artificial flowers
are heaped upon these with only a less
lavish hand than upon hats, and rib-
bons also are an important feature.
Transparent fabrics and thin silks are
also made in the new sun-plaitings,
which radiate from the centre, and are
named "sunburst parasols." — From
Demorest's Magazine for June.

There is more catarrh in this section
of the country than all other diseases
put together, and until the last few
years was supposed to be incurable.
For a great many years doctors pro-
nounced it a local disease, and prescribed
local remedies, and by constantly
failing to cure with local treatment, pro-
nounced it incurable. Science has pro-
ven catarrh to be a constitutional dis-
ease, and therefore requires constitu-
tional treatment. Hall's Catarrh Cure,
manufactured by F. J. Cheney & Co.
Toledo, Ohio, is the only constitutional
cure on the market. It is taken inter-
nally in doses from ten drops to a tea-
spoonful. It acts directly on the blood
and mucous surfaces of the system.
They offer one hundred dollars for any
case it fails to cure. Send for circulars
and testimonials. Address:

The Daily REPUBLICAN
AND Weekly

Have no Equal for Advertising in Seymour or Jackson County.

John P. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John P. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

Read! Read! Read!

REASONS why you should read the Cincinnati Daily

TIMES-STAR:

It has the latest and most reliable foreign as well as domestic news; it has better financial and market reports and more special correspondence than any other Cincinnati newspaper; it contains twice as much news as any other paper sold at the same price; it is a family paper, and has the largest home circulation of any paper printed in the Ohio Valley.

For more than a hundred years the Shakers have been studying the remedial properties of plants. They have made many discoveries, but their greatest achievement was made last year. It is a cordial that contains already digested food and is a digester of food. It is effective in removing distress after eating, and creates an appetite for more food so that eating becomes a pleasure. Pale, thin people become plump and healthy under its use. It arrests the wasting of consumption.

There never has been such a step forward in the cure of indigestion as this Shaker Cordial. Your druggist will be glad to give you a little book descriptive of the product.

RAILROAD BUMBLES.

The Cleveland & Pittsburg division of the Pennsylvania lines is having a big rush of business. Train crews and shop employes are busy, and the pay roll for May it is stated, is the largest of any month in the last five years.

In speaking of the fast run on Tuesday morning from Louisville to Indianapolis over the Louisville division of the Pennsylvania lines, a veteran engineer who was once employed on the Jeffersonville, Madison & Indianapolis, said he questioned if there was an engine now running on this division which would run a mile quicker than could the engines Chief and Gazelle which for so many years hauled the passenger trains between Madison and Indianapolis. Of course, engines of the present day can haul heavier trains, but will run no faster with a train the lighter engine could haul.

A. H. Patter, with E. C. Atkins & Co., Indianapolis, Ind., writes: "I have never before given a testimonial in my life. But I will say that for three years we have never been without Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, and my wife would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to cure—not simply stop pain, but cure absolutely. It is all right, and anyone who tries it will find it so." For sale by C. W. COLONIAL RELIC.

Pittsburg, June 10.—One of the most remarkable discoveries of colonial relics in this vicinity was made a few days ago at the stone quarries of Ira W. Logan at Rochester. It was a petrified wooden cross and was found 20 feet under a mass of limestone. It is about 24 inches in height and the cross arm is 18 inches long. As it rests in its bed of limestone it presents a singularly beautiful and artistic appearance. The washing of over a century and the action of its limestone surroundings have petrified it into its present condition.

Crosses and leaden plates inscribed with the royal design of France were buried in the vicinity of Rochester in the year 1749. The leader of the company was Captain Colman. He left Lachine, near Montreal, on June 15th of that year in company with M. Decontour, afterward commander of old Fort Duquesne. This expedition proceeded from Canada over into what is now New York state and from there down the Allegheny river. At stated distances Colman buried the leaden plates claiming the country for France, while a Jesuit priest did likewise with wooden crosses, symbolizing the work of the church in the untracked regions. The cross will be presented to the Carnegie museum.
